

Summer Project

Project:- Web application for Research paper and video sharing.

A full stack web application that allows the user to share their research papers and videos with their colleagues in the university.

The user can maintain their profile, share their progress, write blogs, upload videos about their findings.

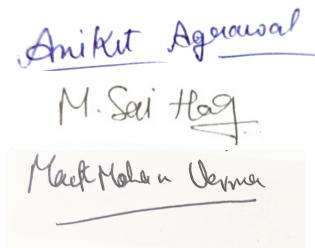

The web app can also be used to find people to collaborate with on a project.

The application can be looked at as a social media platform but for researchers.

Technologies required:- MERN (MongoDB, Express, React, NodeJS), HTML, CSS.

Team:-

1. Aniket Agrawal (19135018)
2. Medam Sai Harish (19135060)
3. Mack Mohan Verma (19135052)

Handwritten signatures of the team members: Aniket Agrawal, M. Sai Harish, and Mack Mohan Verma.

Supervisor:- Dr. Joy Prakash Misra
